

VERIFIER APPLICATION FORM

- We, the applicant listed below, would like to become and be recognised as fully accredited Verifier who may provide verification services in line with the CSG Standard requirements leading to issuance of CSG carbon reduction units.
- We confirm that our company is accredited to ISO14065:2013 to provide greenhouse gas verification. Accreditation certificate is attached.
- Our Verification Body has set up a Verification Team to conduct the GHG verifications. During our future work as accredited body for verification services leading to verification of CSG Standard projects verifiers of the same Team will be utilised.
- We confirm that setting up actual verification team we respect and satisfy the requirements of the ISO 14066:2011 standard.
- We would like to nominate the Verification Team member(s) below of our verifier pool to perform verifications. CVs of verifiers are attached.
